

Kunskap: a report template

Marcel Bollmann

October 26, 2024

This template is mainly intended for academic documents such as reports, assignments, course documents, and so on. Its name, “*kunskap*”, means *knowledge* in Swedish.

Feature demonstration

The default fonts are *Noto Serif* for the body and *Source Sans* for the headings. The default monospace font is *Hack* or *Source Code Pro*. Links will be [highlighted in a steel-blue-ish hue](#).

1. Lists are indented.
 - a. Numbered lists uses numbers (first level) and letters (second level).
 - i. ...and Roman numerals for the third level.
- Lorem ipsum dolor sit amet.
 - Lorem ipsum dolor sit amet.
 - Lorem ipsum dolor sit amet.

Term lists These are also indented. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim aequale doleamus animo, cum corpore dolemus, fieri.

Second-level heading

Headings are not numbered by default, since this template is intended for shorter documents, but you can of course define a numbering:

```
#set heading(numbering: "1.")
```

As you can see, code blocks are also indented and have a light gray background. The same happens for inline raw text.

Third-level heading This level is already intended to be used as a “paragraph heading.” Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore.

Second page

After the first page, the header text will be set in a muted color, with the title of the report on the right-hand side.

... I seem, then, in just this little thing to be wiser than this man at any rate, that what I do not know I do not think I know either.

— from the Henry Cary literal translation of 1897

Missing features

- ✗ Bibliography Styling related to bibliographies is currently missing.
- ✗ Outline Styling for outlines (e.g. table of contents) is currently missing.
- ✗ Tables Global styling for tables is currently missing.

Credits

This template started out by emulating the layout of course documents in [Marco Kuhlmann's](#) courses at Linköping University. On the technical side, this template took a lot of inspiration from [the ilm template](#), even if the design decisions may be radically different.
